VENINI

"ARTLIGHT, FROM DESIGN TO EMOTION"

Dal 1921 il vetro VENINI dona emozione,
un design audace e originale
Arte, Colore, Qualità, Unicità e Artigianalità
danno vita alla collezione
Artlight Aprile 2017 - Contemporary e Classic.

Il vetro VENINI, la luce che si diffonde attraverso
i suoi colori e le sue lavorazioni che lo rendono
riconoscibile e sempre protagonista. Un
caleidoscopio di lampade e lampadari con
illuminazione LED. Anche se in scala diversa la
medesima qualità, nata dalla passione per la
materia, rende ogni creazione unica per fascino e
contemporaneità regalando magiche atmosfere per
ogni ambiente.

*The bold and original designs of VENINI glass
have been creating emotion since 1921.*

Art, Colour, Quality, Uniqueness and Artisan
*breathe life into the April 2017 Art Light collection.
Contemporary yet Classic.*

*The light that emanates through the colours and
shapes of VENINI glass makes it instantly recognisable
and always protagonist. A kaleidoscope of lamps and
chandeliers with LED lighting technology.
Though on different scales, this same quality, the result
of our passion for materials, gives every creation its
own fascination and modernity, and creates magical
atmospheres for all environments.*

ETTORE SOTTASS

"A immaginare cose di vetro si prova un'emozione molto speciale: si immagina luce e colori che non si possono toccare e poi - di colpo c'è la luce e ci sono i colori e, ancora, non si possono toccare, ancora continuano a non avere peso. Tutto questo produce un'emozione speciale."

"To imagine things in glass one feels a very special emotion: one imagines light and colours that one cannot touch, and then - all of a sudden - the light and the colours are there yet still they cannot be touched, they don't have weight, they don't have temperature, they continue to live in our fantasy. All this produces a very special emotion."

LOU

"La collezione Lou nasce dall'idea di lavorare su una forma che ha una sua ambiguità tra l'essere vaso e l'essere lampada. Sono di fatto delle forme di vasi con un piede di metallo ed un tetto dai colori tenui alla cui sommità è posto un pinnacolo rosso: l'insieme assume un sapore vagamente orientale. In qualche modo questi oggetti di luce possono sembrare familiari, ma non è facile capire dove li si è visti prima. E' sempre una piacevole sorpresa godere dell'intensità dei colori del vetro quando la luce dell'oggetto è spenta, e scoprire, quando si accende, che i colori diventano più eterei ed emerge la lavorazione artistica del vetro".

"The Lou collection came from the idea of working on an ambiguous shape which is a combination of a vase and a lamp. In fact, the objects are shaped like vases which stand on a metal base. They are covered with a faintly colored lid which has a red pinnacle placed on top. The overall effect gives a slightly oriental feel. In a way, these objects of light might look familiar, but it's hard to remember where you have seen them before. It is a pleasant surprise to enjoy the intensity of the colors when the light is switched off, and when switched on, those colors become even more intense and the craftsmanship of the glass emerges".
